

## REPORTING OF MEDICAL PROFESSIONAL LIABILITY INFORMATION ON DIVISION OF INSURANCE RESOURCE CENTER

SB 475, the new medical professional liability law, creates Section 155.18a of the Illinois Insurance Code, which requires the Illinois Division of Insurance (DOI) to create a Professional Liability Resource Center on our website, listing contact information for companies and producers selling medical professional liability insurance.

The law requires that companies and producers who wished to be listed on the DOI's website as of January 1, 2006 shall report certain information to the DOI by September 30, 2005.

Because the formal rulemaking process has not yet concluded, the DOI is extending this initial reporting deadline to November 11, 2005.

Therefore, any company or producer wishing to report information to be listed on the DOI's website as of January 1, 2006, **please report the required information by emailing Kelly Kruger at: [KKruger@idfpr.com](mailto:KKruger@idfpr.com)**

Producers:   Producer Name  
                  Producer Business Address  
                  Producer Business Telephone Address  
                  Producer Birth date\*  
                  Producer Social Security Number\*

\*(Birth date and Social Security number will **NOT** be listed on the website, but is being collected only to cross-check the producer's license information with our database)

Name of each licensed company for which the producer sells medical professional liability insurance.

Companies:   Company Name  
                  Company Telephone Number  
                  Hyperlink to Company's Website (if available)

\*\*\*Base Rates -- Note that SB 475 also requires companies to report their base rates if they wish to be listed on the website. The DOI has not yet finalized how we will collect base rate information. Therefore, for the initial reporting, companies are being asked to furnish only the contact information. The DOI will provide instructions in the near future regarding how companies may report base rate information.
